This is a **FREE**, two-hour course designed to help parents and their new teen drivers, ages 14-16, learn the stages of the graduated licensing process and the procedures for the 40 hours of supervised practice driving time.

This is a program that addresses driver attitude, knowledge and behavior, rather than a technical, hands-on driver training course.

While completion of this course may reduce insurance rates, it does not count toward the required 40 hours of supervised driving practice.
